# *Thermodyne*™

Rugged Cases & Racks  
Since 1958

# BUILDING ON 50 YEARS OF INNOVATION

**NO MINIMUM ON CUSTOM FOAM** Whether your equipment is one of a kind or straight off the shelf, our highly skilled team of designers and engineers are dedicated to working with you to meet your design, quality, cost and production needs. No matter if you're an individual needing a single case or a large corporation looking for many, we appreciate your business and will work with you to build to your needs.

**UP TO 30% LIGHTER** Airlines are more restrictive, shipping charges are up and many of our customers are carrying their own equipment. Thermodyne cases reduce weight by utilizing modern design with only the highest quality light weight military grade materials for a case that provides superior protection while reducing both weight and bulk for easy transport.

**SUPERIOR SHOCK PROTECTION** While rigid cases transfer shock straight to their contents, Thermodyne cases actually absorb and mitigate harmful shock and vibration through integrated bumpers and ribbings. Our proven design means your sensitive equipment will arrive safely, eliminating expensive repairs and preventing costly downtime.

**OEM DONE RIGHT** Companies as diverse as Sony, Panasonic, Lockheed Martin, Apple, Canon, JVC, General Motors and Boeing have all relied on Thermodyne to design and manufacture their cases for complete protection. Thermodyne can aid designers in idea generation and conception by offering our expertise in materials, processes, and an in-depth knowledge base in custom shipping solutions. We are able to offer our OEM customers the use of our in-house engineering department to prototype, sample, and brainstorm to give them the opportunity to refine and perfect the design they need.

**THERMODYNE DOES IT ALL** Custom manufacturing, custom engineered foam in both large and small quantities, in-house environmental testing, computer based design and fabrication, custom prototyping, OEM production and packaging, metal and plastic fabrication, custom thermoforming and much more. Manufactured to strict ISO quality standards, Thermodyne has the facilities to reliably keep up with any demand. Give us a call and let us help. We can take the worry out of your shipping preparations and protection needs so that you can focus on what you do best... your job.

• PURCHASE FACTORY DIRECT • NO MINIMUMS ON CUSTOM FOAM

# ***Slimline***™

## OPTIONAL HANDLE & WHEELS MAKE **SLIMLINE**™ THE ULTIMATE IN MOBILITY

Low in profile, **Slimline**™ shipping cases easily go where other cases can't. A unique bumper free design makes **Slimline**™ cases ideal for travel in airports, exhibition halls, hotels or on location. Built to be rugged and ATA compliant, **Slimline**™ cases can be carried, checked or shipped anywhere with complete confidence.

While other manufacturers use low quality add-on parts, **Thermodyne's Slimline**™ cases are manufactured with integrated telescoping handles and recessed wheels with rugged steel-ball bearing for a lifetime of reliable usage.

## **UP TO 30% LIGHTER IN WEIGHT**

As with all Thermodyne cases, your **Slimline**™ is designed and manufactured in the USA with military-grade, weight saving materials, increasing strength while decreasing weight.

# ShokStop™

## SUPERIOR ENGINEERING MAKES SHOKSTOP™ THE CASE OF CHOICE

For over 50 years the **Shok-Stop™** line has set military & industrial standards. Rugged ATA approved **Shok-Stop™** cases range in size from ten inches to twenty feet long. **Shok-Stop™** cases feature **Thermodyne's** protective bumper system, high-molecular weight polyethylene construction, aircraft quality aluminum extrusions and rugged military proven hardware for extreme durability and protection.

- \* **PATENTED SPRING-LOADED HARDWARE**
- \* **AVAILABLE MIL-SPEC SEALING**
- \* **FULLY CUSTOMIZABLE CASE DEPTHS**
- \* **AVAILABLE REMOVABLE WHEELS**
- \* **RUGGED BUILD, YET LIGHT IN WEIGHT**

# RackPack™

## THE MOST RUGGED RACK-MOUNT CASES ON THE PLANET

Built to demanding military specifications, **RackPacks** are engineered and manufactured with durability, protection and mobility in mind. Extremely versatile, **RackPacks** offer an endless array of customizable features from **custom frame depths** to custom logos and colors. No other manufacturer can provide you with a custom rack-mount case like **Thermodyne** can. We prove that heavy-duty construction and design doesn't have to mean back breaking weight.

Manufactured with **lightweight** aluminum, **RackPacks** are lighter in weight when compared with old-fashioned roto-molded racks. Gasket sealed removable lids offer easy access to mounted equipment. You only need to remove the lids and connect to a power outlet. Working on-site has never been easier.

# PlasmaCase™

## COMPACT, LIGHT & RUGGED UPRIGHT LED & PLASMA PROTECTION

Thermodyne's line of upright display cases feature everything you need to get your equipment on site without hassle or incident. Rugged construction, thorough engineering and the use of modern low-weight, military certified materials make **Thermodyne's PlasmaCase™** & display cases your only choice for complete protection.

- \* **AVAILABLE PALLETIZING KIT**
- \* **DUAL-GAUGE POLY FOR ADDED PROTECTION**
- \* **FULLY CUSTOMIZABLE INTERIOR**
- \* **AVAILABLE WIDE-STANCE WHEELS (SHOWN)**
- \* **DISPLAYS RANGE FROM 30" to 30"**

Need a smaller size? Give us a call! Thermodyne offer a complete line of smaller display cases for smaller LCD or Plasma units ranging from 5" to 30".

**THERMODYNE CASES ARE  
PROUDLY MADE IN USA TO  
RIGID ISO QUALITY STANDARDS**

**ROLLING CASES**

**ALL THERMODYNE CASES & RACK LINES INCLUDE  
SPECIFIC MODELS WITH BUILT-IN HANDLE & WHEELS.  
CALL TODAY FOR MORE INFO!**

Electronic equipment can be bulky and heavy. **Thermodyne** offers a solution that saves your back while going light on your wallet. Available handle and wheels will make your next trip through the airport even easier. When not in use, our integrated handle retracts and locks securely into the case's body.

**Do yourself and your back a favor  
and upgrade today!**

- \* **ATA & TSA COMPLIANT**
- \* **SEALED STEEL BALL-BEARING WHEELS**
- \* **SPRING-LOADED LATCHES & HANDLES**

**MAKING YOUR JOB  
EASIER ONE TRADESHOW  
AT A TIME**

**TRADESHOW CASES**

## SUPERIOR FIT, FUNCTION & RELIABILITY

Your image & livelihood rely on your equipment arriving and being fully functional. Don't settle for anything less than **Thermodyne's** full line of trade-show cases and rackmounts. From monitors and projectors to lighting and displays, **Thermodyne** offers custom solutions for reliable transit with hassle-free setups and takedowns.

## THERMODYNE OFFERS CUSTOM FABRICATION

Do you have an unusual transit project that requires fabricated mounts, supports or a custom configuration to use your gear straight from a case? Call us! We can custom fabricate anything in our **ISO Certified** in-house machine shop!

Buy Direct: (909) 923-9945

*Thermodyne*<sup>™</sup>

## RUGGED PRECISION-BUILT RACKMOUNTS MANUFACTURED TO YOUR SPECIFIC GEAR

Don't settle for a generic rackmount with "universal" mounts...or worse yet, a "foam mount". **Thermodyne** racks are built to rugged MIL-STD-810G for complete rugged protection. Every case is custom built to your gear's specific needs. All shock absorbing mounts are rated to your gear's weight and sensitivity. All frames & bodies are custom fabricated in-house to fit your exact needs.

**NEED IT YESTERDAY?**  
**NO PROBLEM, GIVE US A CALL!**

- \* **FRAME DEPTHS FROM 20" to 35"+**
- \* **AVAILABLE IN 2RU to 34RU+**
- \* **SIDE & CORNER MOUNT CONFIGURATIONS**

Buy Direct: (909) 923-9945

**SHIPPING RACKS**

**ATA COMPLIANT**

## ALL THERMODYNE SHIPPING CASES ARE FULLY ATA COMPLIANT

**Thermodyne cases** come standard with **heavy-duty spring-loaded hardware** which lay flush to **prevents hardware shearing**. Rugged military-grade construction means never having to worry about if your gear makes it to your destination or not. Chances are it's a lot more comfortable than you are! Optional **Thermodyne TSA locks** allow you to lock and check your electronics.

**CHECK IT AND FORGET IT!**

**SONY**

**CUSTOM OEM CASES**

## LET US HELP MAKE OUR CASE YOURS WITH THERMODYNE OEM SERVICES

**Thermodyne** makes it easy to brand and package a **Thermodyne case** of your own. Not only do the large companies like **Panasonic, Sony, Canon, Ikegami, JVC** and **Hitachi** rely on **Thermodyne** to manufacture **OEM products** for their customers... We also manufacture OEM cases for smaller companies that won't need to order those huge quantities. With low minimums on **custom colors** and **logos**, it's easy to quickly integrate a custom **Thermodyne case** into your product line. With our help, the same "large company look" can be added to your product line.

**50+ YEARS OF MILITARY TESTING  
& ENGINEERING AT NO COST TO YOU!**

Thermodyne has spent 50+ years working with military and defense engineers in an effort to make rugged shipping cases stronger, lighter and more user friendly. Instead of solely sharing our results with the military, we've integrated everything we've learned into our professional lines; the same reliable & proven hardware, the same modern lightweight materials, and the same rugged build. Thermodyne affords our professional customers access to the finest, strongest & lightest rugged cases on the planet.
